Quality Policy

The Company is committed to providing complete customer satisfaction to the best of its abilities and to ensuring that all internal procedures and practices are suitable for that purpose. The attention of staff is especially drawn which specifies the Company's quality objectives.

In addition, the Company complies with applicable legislation and regulations as well as the recommendations and ethics of industry bodies to which it subscribes. This commitment extends to the continual improvement of quality and environmental performance together with the prevention of pollution.

To achieve this result the Company has adopted a policy of operating a co-ordinated Quality Management System meeting the requirements of the ISO 9001:2015 standard, by providing the framework for setting and reviewing management objectives and targets.

It is the Company's policy to maintain an electronic communications network covering all aspects of the services provided that links all offices and the ships being operated. While standard formats are used, the facility exists to adjust the format to suit the specific requirements of an individual contract.

PPE Policy

The following will be observed and practiced by the company and employees when the company undertakes any job or contract.

- All PPE used by this company will be within the requirements of Occupational Health and Safety legislation.
- All PPE used by this company will be maintained in accordance with manufacturer's instructions and requirements.
- Company-issued PPE will be inspected at the time of issue and before each use by the employee.
- All PPE that is damaged, or in need of service or repair will be removed from service immediately.
- The company will maintain appropriate inspection and service logs for specialty PPE.

Legal Documentation

The Company is committed to compliance all Legal documentation.
